

Ankur Chikhaliya

Python Developer · AI/ML Engineer · React Developer

Surat, Gujarat, India | hello@ankurchikhaliya.com | ankurchikhaliya.com | github.com/ankur-chikhaliya | linkedin.com/in/ankurchikhaliya

SUMMARY

Python and AI/ML developer who also builds frontend interfaces in React. Experienced working across the stack — from training and integrating machine learning models to shipping the interfaces that put them in front of users. Currently working as a Software Developer at Skyllect Pvt. Ltd., after starting there as an intern.

EXPERIENCE

Software Developer — Skyllect Pvt. Ltd. Present

- Build and maintain features using Python and React across backend and frontend.
- Work on AI/ML-related tasks as part of ongoing projects.
- Collaborate with the team on code reviews and day-to-day development tasks.

Software Development Intern — Skyllect Pvt. Ltd. 6-month internship

- Learned the production codebase and development workflows across Python, AI/ML, and React.
- Assisted the team on assigned tasks and small feature contributions.
- Converted from intern to full-time Software Developer after the internship.

PROJECTS

Reel Script Writer Claude Code plugin that writes complete short-form video scripts (Reels/TikTok/Shorts) — hooks, timed beats, captions, and live trend research.	github.com/ankur-chikhaliya/reel-script-plugin	Site to Prompt Claude Code plugin that turns any website URL into a full rebuild-spec prompt — palette, typography, layout, and animations.	github.com/ankur-chikhaliya/site-to-prompt
